Welcome to the DJ Club Pool!

We hope this will be a valuable resource for you in building your library.
We ask that you follow some basic rules while using The Pool.
(See the next page for more info)

DO *NOT* SHARE YOUR LOGIN INFORMATION !!

For security and legal reasons, do not give ANYBODY access to your ID Number.

(You don't want to be the reason our Google Accounts get shut down)

IF YOU WOULD LIKE TO GIVE ACCESS TO SOMEONE, HAVE THEM FILL OUT [THIS FORM]

Be sure they mention your name and that they are requesting pool access.
After confirming with you, we will send them access within 48 hours.

The Pool Has A 2-Step Login Process.

You must first enter your Member ID to get the links to the pool (on [osudj.club]),
and then use your Google account to request access (on Google Drive).
If your request is not approved within 24 hours, DM Joe or Nishant.

How the Pool Works

The Pool is populated by members of the club. If you're interested in contributing to the pool or have songs to share, please upload them to the **SUBMISSIONS Folder**. This dropbox is not for sharing original work, rather songs/edits that fellow members can play at events.

The Folders

Folder 1 - NEW
This folder contains highlights, special picks, new releases, and stuff we like. Updated semi-regularly. Sorry in advance for the bias towards tech house ;)

Folder 2 - POP
Your pop and throwback hit essentials
Some are clean, some are dirty

Folder 3 - Rap & Hip-Hop
Starting kit for both throwback and current hip-hop hits

Folder 4 - EDM
2 Folders. The house folder isn't for everyone, but it's there if you want it. Check out the Various EDM folder for your standard EDM hits.

Folder 5 - Misc Genres and DJ Tools
Transition Edits (clean and dirty), hour-long cocktail mixes (all clean), along with a few other genres to check out.

Folder 6 - CLEAN
Basically my prom folder. Clean hip-hop (2 folders with two different styles to choose) and some clean pop music as well. This folder is meant to supplement Pop Folder 2.

Folder 7 - SUBMISSIONS
Found a song we're missing that you think other DJs should have in their library? *Great!*
Found a special edit of a track that you'd like to share? *Even Better!*
Upload your track to this folder and a site manager will sort it to the appropriate section.
